

Prueba 1: Código 200 OK llamada a traer cuenta

The screenshot shows the Postman interface with a new request created. The request is a GET method to the URL `http://localhost:8500/api/v1/accounts/detail?id=ACC-001`. The 'Params' tab is active, showing a query parameter `id` with the value `ACC-001`. The response is a 200 OK status with a response time of 72 ms and a body size of 210 B. The response body is displayed in JSON format:

```
{  "titular": "Carlos Mendoza",  "saldo": 500000.0,  "estado": "ACTIVA",  "historial": []}
```

Prueba 2: Prueba de error con monto menor a 0

The screenshot shows the Postman interface with a new request created. The request is a POST method to the URL `http://localhost:8500/api/v1/transactions/transfer`. The 'Body' tab is active, showing a JSON body:

```
{  "desde": "ACC-001",  "hacia": "ACC-002",  "monto": -2}
```

The response is a 400 Bad Request status with a response time of 24 ms and a body size of 204 B. The response body is displayed in JSON format:

```
{  "error": "El monto a transferir debe ser estrictamente mayor a cero"}
```

Prueba 3: Modificar estado sin autorización

The screenshot shows a Postman interface with a new request configured as follows:

- Method:** POST
- URL:** `http://localhost:8500/api/v1/accounts/admin/bypass-status`
- Body (JSON):**

```
{  "id": "ACC-881",  "status": "BLOQUEADA"}
```

The response is **401 Unauthorized** (15 ms, 196 B). The JSON body is:

```
{  "error": "Acceso Denegado: Requiere Token de Administrador"}
```

The right sidebar shows a 'New Chat' panel with suggestions like 'Fix 401 bypass-status auth'.

Prueba 4: Modificar estado con autorización

The screenshot shows the same Postman interface, but with the 'Headers' tab selected and an 'Authorization' header added:

Key	Value	Description
Authorization	Bearer ADSO-SECURE-TOKEN-20...	

The response is **200 OK** (87 ms, 213 B). The JSON body is:

```
{  "status": "CHANGED",  "message": "Estado de cuenta modificado exitosamente a BLOQUEADA"}
```

The right sidebar shows a 'New Chat' panel with suggestions like 'Fix bypass-status auth header'.
